Personal presentation / Texte de présentation

I am an APEEEL member and have one child who is currently in Maternelle 2 and another child staring Maternelle 1 in September 2019 at European School in Mamer. I have experience as a voluntary Executive Committee member for a Social and Language learning club and a Community and Cultural Association Club. I have a Doctorate Degree, PhD, in Pharmaceutical Sciences. I work in clinical research project management leading cross functional teams and cross geographical teams to ensure a successful, transparent and robust collaboration to deliver global clinical trials.

Short personal statement in French or English / Bref texte de motivation, en français ou anglais

I am passionate about public education and have a strong belief that any children deserve good education, foundation and opportunities to learn and develop in the most supportive and nurturing environment. I have a great interest in enhancing children's learning activities, opportunities to develop their IT and coding skills from early on, health and safety issues and improved quality and facilities. I can bring experience from my voluntary and professional work, transferable skills, dedication and commitment to the board. I look forward to working together with parents, educators and other key stakeholders to secure quality education for all our students.
