News & Media Literacy
Disinformation
Scams
Phishing
Malware

BEE SECURE
common sense education®
Childnet

Key Action 1: School Projects for Digital Citizenship

A **Project-Based Learning (PBL)** approach is followed in most ICT lessons.

The premise of PBL is to solve real-world challenges through questions, investigations, analyses, drawing conclusions, and finally the presentation of findings to an authentic audience.

Key Action 2: Organizing School Campaigns

The Safer Internet Campaign is part of the Digital Learning initiative, which aims to promote the ethical and safe use of ICT and facilitate learners' digital competencies

Our school participated in this global event by organizing a Safer Internet campaign for S1 and S2 students. For one week and during ICT lessons, the students had the chance to learn more about Internet Safety by participating in various activities such as:

- ✓ designing posters
- ✓ delivering presentations
- ✓ creating word clouds
- ✓ discussing and debating in class
- ✓ playing interactive quizzes

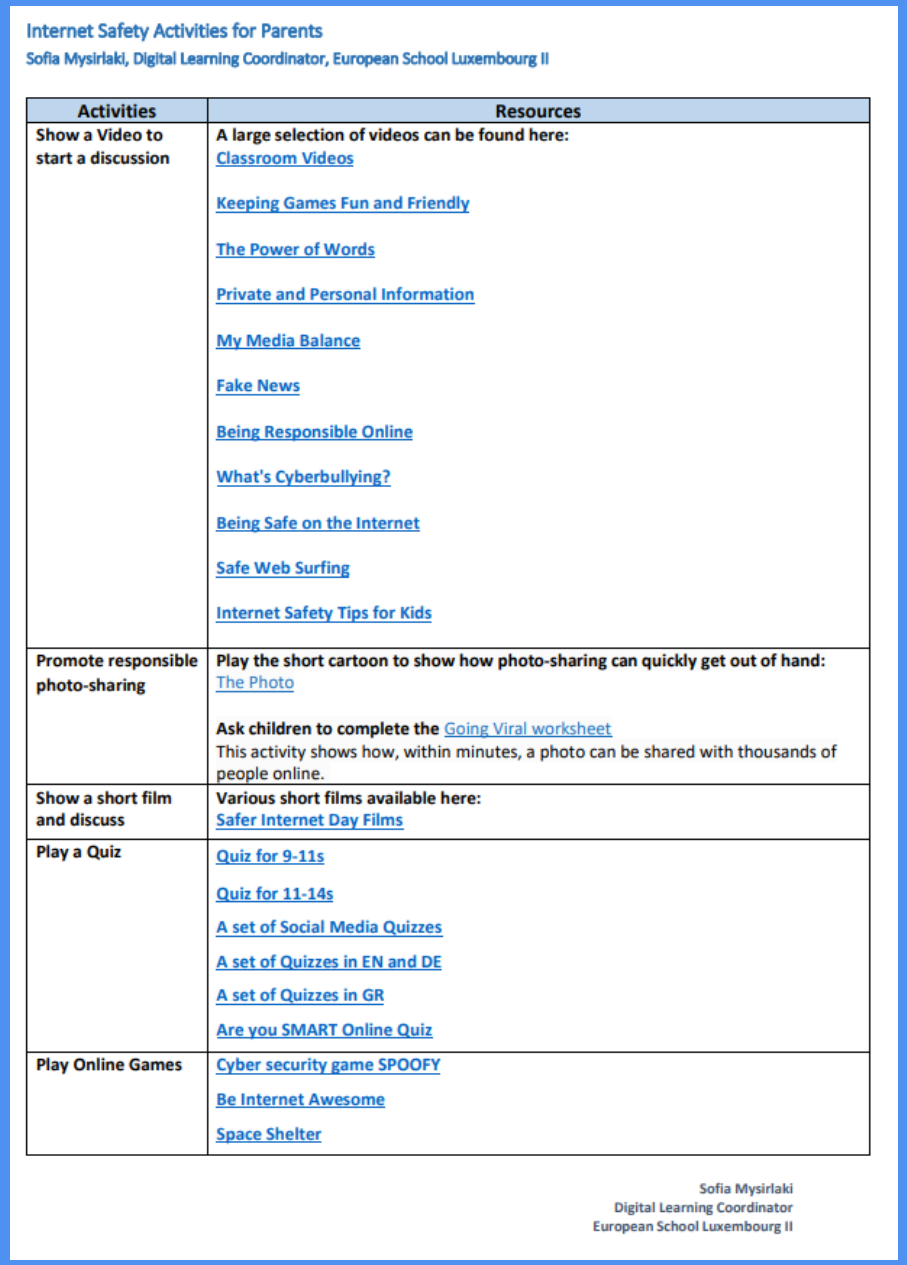

Key Action 3: Supporting and facilitating the use of digital means

Internet Safety Activities for Parents

Sofia Mysirlaki, Digital Learning Coordinator, European School Luxembourg II
