

Subject: Invitation to an online conference on supporting neurodivergent children

Dear Parents,
Dear Carers,
Dear Teachers,

We hope this letter finds you well. On behalf of the Parent's Associations of the 13 European schools, you are kindly invited to an upcoming online conference that promises to be both enlightening and beneficial for all parents who have neurodivergent children.

Date: 15th May 2024
Time: 18:00-19:30 (Brussels Time)
Platform: The link to connect will be provided to registered participants 2 days before the event.

We are honoured to host Professor Amanda Kirby, a renowned expert in the field, who will be leading the conference. Professor Kirby is highly specialized – among others - in providing practical strategies for parents to support their neurodivergent children both in the present and in planning for their future. Her insights and expertise promise to offer invaluable guidance to parents navigating the challenges and opportunities associated with raising neurodivergent children.

Neurodiversity encompasses a wide range of conditions such as ADHD, autism, dyslexia, dyspraxia and more. Understanding and supporting neurodivergent children requires for tailored approaches and a deep understanding of their unique needs. The conference will delve into practical strategies that can be implemented at home and in other environments to enhance the well-being and success of neurodivergent children.

This conference serves as an opportunity for us, as parents, to equip ourselves with the knowledge and tools necessary to support our children on their journey. By attending, you will not only gain valuable insights but also contribute to fostering a supportive community where all children can thrive.

Please RSVP HERE by the 12th of May to confirm your attendance and receive further details about accessing the online conference.

Thank you and looking forward to your participation in this enriching conference.

Warm regards,

Floriana Grimaldi Interparent member responsible for educational support, with the contribution of all APEEEs and Interparents
